MEMORANDUM FOR: Acting Personnel Director

Colonel White believes that further development of the accompanying paper on a CIA civilian reserve, now returned from General Cabell, should be joined with the results of the deliberation given this subject by the CIA Career Service Board. You will recall that the Board felt that negotiations must be conducted with the military to eliminate conflicts in a CIA reserve plan and the military reserves. Colonel White requests that your Office now further explore this problem, perhaps making preliminary contacts with the military, and develop recommendations to him for appropriate action. Such recommendations should be forwarded to him not later than 16 December 1953.
